

M400 **Optical Microscope**

400x Fiber Optic Microscope

Palm Sized, Rugged and Easy To Use.

The Yamasaki M400 Fiber Optic Microscope has high quality precision all glass optics and integrated infra-red safety filter making it the most sought after Fiber Optic Microscope for use in the field or laboratory.

The Yamasaki M400 Fiber Optic Microscope supports Coaxial viewing mode, allowing a surface view of the fiber end face, this is critical for ensuring optimal connectivity. For ease of use the Yamasaki M400 Fiber Optic Microscope also incorporates a timed switch that illuminates the end face without having to constantly hold in the button.

The rugged metal construction, comfortable rubber grip, soft eye-piece and small size make the Yamasaki M400 Fiber Optic Microscope the ideal choice for contractors and technicians.

FEATURES

- 400x Magnification
- 950µm Field of View
